

K-Love is my radio station of choice because it sends such a positive message, that no other radio station I know plays. I feel really good that my money goes to support such a great radio station that is heard all over. I feel that if K-Love were to be removed from the air, there would be so many people left feeling lonely, suicidal, like there is no one in the world who understands them. I believe K-Love serves the public interest because it provides great, positive music for families. It also brings people from all over the world together in this simple way, and lets them know there are people out there who care.
